General Administration - Increase for MDE Operations

Due to several years of reduced funding for operations, in addition to budget cuts, MDE has not been able to provide sufficient support to school districts and maintain operations. Additional travel funds will allow more technical assistance visits to districts. In an effort to minimize cuts to programs that would directly affect providing services to school districts, MDE leadership made the decision to absorb these cuts through agency operations, leaving offices' non-personnel budgets at minimum levels. This increase request will allow MDE to bring agency operations back to a level where it can adequately provide support services to school districts. Cuts were made to all categories and restoration is reflected in all categories throughout MDE's agency operations request.
