PROGRAM NARRATIVE

Program Data Collected in Accordance with the Mississippi Performance Budget and Strategic Planning Act of 1994 (To Accompany Form MBR-1-03)

USM-Stennis Center for Higher Learning

1 - INSTRUCTION PROGRAM NAME

I. Program Description:

AGENCY NAME

The Center of Higher Learning (CHL) is an academic consortium that provides a central location to serve the educational and training needs of all Stennis Space Center employees as well as the residents of the surrounding communities. Undergraduate and graduate programs are offered through a collaborative arrangement with the University of Southern Mississippi, Mississippi State University, the University of New Orleans and Pearl River Community College; the considerable on-site faculty research further cultivates the far-reaching educational opportunities. Applied technology activity focuses on programs that complement the major scientific and education programs at the Stennis Space Center. The Center for Higher Learning also acts as a catalyst to develop innovative programs between the varying agencies of the United States government, the state of Mississippi, and (NASA) Stennis Space Center.

II. Program Objective:

The objective of the Center of Higher Learning is to facilitate the growth of the undergraduate and graduate programs through the participating universities while focusing on the education and training requirements of agencies at Stennis Space Center. Specifically the CHL will establish and maintain nationally recognized applied technology programs in the areas of remote sensing and GIS, High Performance Computing, visualization and scientific computing, and other areas as necessary to support the Stennis Space Center. A related goal is to enhance the capabilities of the agencies on-site by establishing partnerships with state agencies and other organizations to facilitate mutually supportive program development. The Center of Higher Learning also acts as a catalyst for state economic development efforts by promoting the technical capabilities of Stennis Space Center agencies, supporting start-up ventures with market potential, and nurturing technological innovations.

- III. Current program activities as supported by the funding in Columns 6-15 (FY 13 Estimated & FY 14 Increase/Decrease for continuations) of MBR-1-03 and designated Budget Unit Decisions columns of MBR-1-03-A:
- (D) Personnel Cost Adjustments:

In order to meet rising personnel costs for PERS increases, enrollment increases, and to prevent further decline in competitive faculty salaries, funds are requested for personnel cost adjustments to maintain competitive salary and benefits for faculty.
