PROGRAM NARRATIVE

Program Data Collected in Accordance with the
Mississippi Performance Budget and Strategic Planning Act of 1994
(To Accompany Form MBR-1-03)

MSU - Water Resources Research Institute

1 - RESEARCH & TECHNOLOGY TFR

AGENCY NAME

PROGRAM NAME

I. Program Description:

The Mississippi Water Resources Research Institute (MWRRI) was authorized by Mississippi's Governor Paul B. Johnson in 1964 and is one of 54 institutes in the United States that form a network of coordinated research programs to solve water problems of state, regional, or national significance. In 1983, the Mississippi Legislature formally designated MWRRI as a state research institute. Federal legislation specifies that each institute consult with leading water officials of the state in developing a coordinated research technology transfer and training program that applies academic expertise to water and related land-use problems. These activities are funded in large part through an annual grant from the U.S. Geological Survey. MWRRI's state authorization charges it with carrying out the responsibilities listed below:

1. Assist state agencies in developing and maintaining a state water management plan;
2. Consult with state and local agencies, water management districts, water user associations, the Mississippi legislature, and other potential users to identify and establish water research, planning, policy, and management priorities.
3. Negotiate and administer contracts with local, regional, state and federal agencies and other Mississippi universities to mitigate priority water and related problems;
4. Report to the appropriate state agencies each year on research projects' progress and findings;
5. Disseminate new information and facilitate transfer and application of new technologies as they are developed;
6. Be a liaison between Mississippi and funding agencies as an advocate for Mississippi water research, planning, policy, and management needs; and
7. Facilitate and stimulate planning and management that:
 - a. Deals with water policy issues facing the state of Mississippi;
 - b. Supports state water agencies' missions with research on encountered and expected problems;
 - c. Provides water planning and management organizations with tools to increase efficiency and effectiveness of water planning and management.

On April 9, 2013, MSU through the MWRRI was designated by Region 4 of the U.S. Environmental Protection Agency (EPA Region 4) and the Mississippi Department of Environmental Quality (MDEQ) as a Center of Excellence for Watershed Management with the formal signing of a Memorandum of Understanding (MOU) by these parties. The MOU acknowledges that the MWRRI had demonstrated to the satisfaction of EPA and MDEQ that it has the capacity and capability to identify and address the needs of local watershed stakeholders and that it has support at the appropriate levels of MSU. It also specifies the Center of Excellence to serve as the point of contact and primary coordinating entity for colleges and universities in Mississippi. The primary purpose of the Center of Excellence is to utilize the diverse talent and expertise of colleges and universities by providing hands on practical products and services to help communities identify watershed-based problems and develop and implement locally-sustainable solutions. The MOU also guides the Center of Excellence to actively seek out watershed-based stakeholders that need assistance with project development and management, research and monitoring, education and outreach, engineering design, computer mapping, legal and policy review, and other water resource planning and implementation needs. Annual commitments of the MWRRI to maintain the designation are also identified in the MOU.

II. Program Objective:

1. Serve public and private interests in the conservation, development, and use of water resources.
2. Provide training opportunities in higher education whereby skilled professionals become available to serve government and private sectors alike.
3. Assist planning and regulatory bodies at the local, state, regional, and federal levels.
4. Communicate research findings to potential users in a form that encourages quick comprehension and direct application to water related problems.

III. Current program activities as supported by the funding in Columns 6-15 (FY 15 Estimated & FY 16 Increase/Decrease

(D) Formula Equity Funding:

In order to fully implement formula equity among institutions and hold institutions harmless, funding is requested restore baseline appropriations to FY 2009 level.

2016 BUDGET REQUEST

MSU - Water Resources Research Institute

Name of Agency

I. Program Description:

The Mississippi Water Resources Research Institute (MWRRI) was authorized by Mississippi's Governor Paul B. Johnson in 1964 and is one of 54 institutes in the United States that form a network of coordinated research programs to solve water problems of state, regional, or national significance. In 1983, the Mississippi Legislature formally designated MWRRI as a state research institute. Federal legislation specifies that each institute consult with leading water officials of the state in developing a coordinated research technology transfer and training program that applies academic expertise to water and related land-use problems. These activities are funded in large part through an annual grant from the U.S. Geological Survey. MWRRI's state authorization charges it with carrying out the responsibilities listed below:

1. Assist state agencies in developing and maintaining a state water management plan;
2. Consult with state and local agencies, water management districts, water user associations, the Mississippi legislature, and other potential users to identify and establish water research, planning, policy, and management priorities.
3. Negotiate and administer contracts with local, regional, state and federal agencies and other Mississippi universities to mitigate priority water and related problems;
4. Report to the appropriate state agencies each year on research projects' progress and findings;
5. Disseminate new information and facilitate transfer and application of new technologies as they are developed;
6. Be a liaison between Mississippi and funding agencies as an advocate for Mississippi water research, planning, policy, and management needs; and
7. Facilitate and stimulate planning and management that:
 - a. Deals with water policy issues facing the state of Mississippi;
 - b. Supports state water agencies' missions with research on encountered and expected problems;
 - c. Provides water planning and management organizations with tools to increase efficiency and effectiveness of water planning and management.

On April 9, 2013, MSU through the MWRRI was designated by Region 4 of the U.S. Environmental Protection Agency (EPA Region 4) and the Mississippi Department of Environmental Quality (MDEQ) as a Center of Excellence for Watershed Management with the formal signing of a Memorandum of Understanding (MOU) by these parties. The MOU acknowledges that the MWRRI had demonstrated to the satisfaction of EPA and MDEQ that it has the capacity and capability to identify and address the needs of local watershed stakeholders and that it has support at the appropriate levels of MSU. It also specifies the Center of Excellence to serve as the point of contact and primary coordinating entity for colleges and universities in Mississippi. The primary purpose of the Center of Excellence is to utilize the diverse talent and expertise of colleges and universities by providing hands on practical products and services to help communities identify watershed-based problems and develop and implement locally-sustainable solutions. The MOU also guides the Center of Excellence to actively seek out watershed-based stakeholders that need assistance with project development and management, research and monitoring, education and outreach, engineering design, computer mapping, legal and policy review, and other water resource planning and implementation needs. Annual commitments of the MWRRI to maintain the designation are also identified in the MOU.

II. Program Objectives:

1. Serve public and private interests in the conservation, development, and use of water resources.
2. Provide training opportunities in higher education whereby skilled professionals become available to serve government and private sectors alike.
3. Assist planning and regulatory bodies at the local, state, regional, and federal levels.
4. Communicate research findings to potential users in a form that encourages quick comprehension and direct application to water related problems.

III. Current program activities as supported by the funding in Columns 6-15 (FY 15 Estimated & FY 16

NARRATIVE
2016 BUDGET REQUEST

MSU - Water Resources Research Institute

Name of Agency

Increase/Decrease for continuations) of MBR-1-03 and designated Budget Unit Decisions columns of MBR-1-03-A:

1. Facilitation of Watershed-based Planning and Implementation Projects
2. Generation of Applied Water Resources Research
3. Technology and Research Transfer through MSU's Cooperative Extension and REACH Programs
4. Support of Implementation of Conjunctive Water Management Strategies in the Mississippi Delta
5. Support and Facilitation of Low-Impact Development and Green Infrastructure Projects
6. Alternative Water Supplies for Economic Development
7. Facilitation of Collaborative Partnerships with Other Institutions of Higher Learning
8. Facilitation of Annual Water Resources Conference

Inflation:

A core operations inflation factor of 5/0% is used for MWRRI budgeting.
