

Mississippi Arts Commission

Strategic Plan for Fiscal Years 2022-2026

1. Mission Statement

The Mississippi Arts Commission's (MAC) mission is to support and celebrate Mississippi's creative spirit by being a catalyst for the arts and creativity in the state. MAC provides grants and technical assistance to arts organizations, non-profit organizations and educational institutions throughout the state that are engaged in arts programming. The agency also supports individual artists through grants and services. MAC also sponsors a number of special initiatives that work to increase the arts in the K-12 education, develop strategies that use the arts as a tool of community development, and promote awareness of the state's rich artistic heritage.

2. Agency Philosophy

MAC is firmly committed to supporting and increasing creative opportunities for all Mississippians. The agency's work is guided by a set of core values that the staff relies on in all circumstances, irrespective of changes in MAC's goals, strategies, or management. MAC's core values are:

- Objectivity and Clarity
- Transparency
- Collaboration
- Professionalism

3. Relevant Statewide Goals and Benchmarks

In reviewing *Building a Better Mississippi*, the statewide strategic plan, MAC's work connects to the Education-Public Schools and Economic Development goals. While the agency's efforts do not tie directly to the outcomes listed within the benchmarks of the state plan, MAC works to impact K-12 education through its grants to schools as well as multiple special initiatives, including Whole Schools and Poetry Out Loud. These efforts focus on increasing student achievement and the quality of the learning environment. In economic development, MAC is working to showcase the impact of creative industries on the state's economy, as well as encourage local organizations to develop their cultural assets through its Arts-Based Community Development program.

4. Overview of Agency 5-Year Strategic Plan

MAC conducts an extensive feedback process every five years to gather information for its strategic plan. This was done most recently during the fall of 2016 and spring of 2017. MAC sought feedback on its programs and future direction from constituents, policy makers, and the general public. The agency utilized a number of methods to gather feedback, including an online survey, public meetings, roundtable discussions with different constituent groups, and one-on-one interviews.

MAC used this feedback to devise the plan that has guided the agency's work from 2018 through 2022. A new plan process will be conducted in 2021-22 to develop the next plan. The current plan is built around four strategic "pillars" that guide the agency's work:

- Communicate the story of the arts in Mississippi
- Convene and offer professional development opportunities
- Invigorate and expand lifelong learning through the arts
- Expand and diversify (the agency's) fiscal resources

5. Agency Internal/External Assessments

5.1 - External & Internal Factors that would influence MAC's ability to achieve its goals:

External Factors:

- Changes in federal funding (from the National Endowment of the Arts)
- Changes in reporting requirements for the agency's federal grant
- Downturn in tax collections, affecting the amount of funds provided to MAC through the Education Enhancement Fund
- Large-scale staff turnover in arts organizations and MAC partnering organizations around the state

Internal Factors:

- Changes in staff which may require training or re-focusing an initiative
- Changes in agency direction guided by MAC's Board of Commissioners

MAC is required to submit an annual report to the National Endowment for the Arts as part of the agency's grant. As part of the grant agreement, MAC is required to submit to an audit of our grant spending when requested by the NEA's Inspector General.

5.2 – Internal Management Systems Used to Evaluate Performance

MAC gathers extensive data on the activities of its grantees through the applications and reporting that they submit. Program staff also make regular site visits to grantees to see if the activities as described in their grant application are taking place. The program staff reviews grant data on an ongoing basis and makes suggestions to the Executive Director for any needed changes. The agency also gathers feedback from participants in its special initiatives and uses it to make modifications to the programs.

The agency's Executive Director and fiscal staff monitor the agency's income and expenses. When there are decreases, they make changes to program budgets in order to manage the budget change. Also, MAC's Board of Commissioners are briefed on the agency's ongoing activities at their quarterly meetings. They provide feedback and guidance to the Executive Director on any possible changes in direction.
