OFFICE OF THE ATTORNEY GENERAL

5-YEAR STRATEGIC PLAN

FOR THE FISCAL YEARS 2018 - 2022
1. Comprehensive Mission Statement:

The Mississippi Attorney General serves as the chief legal officer and advisor for the State of Mississippi pursuant to the Section 173 of the Mississippi Constitution of 1890 and Sections 7-5-1, et seq., Miss. Code Ann. (1972). The Office of the Attorney General (OAG) is responsible for representing the public interest of the State; public officials and governmental departments, agencies, boards, and commissions; handling criminal appeals for the State and for issuing legal opinions that interpret state law. The Attorney General has the power to control and manage all litigation on behalf of the state and to maintain all suits necessary for enforcement of State laws, preservation of order, and protection of public rights.

2. Statement of Agency Philosophy

As employees of the state’s chief legal officer and advisor, OAG staff are to carry out the responsibilities of the Office of Attorney General in a manner that is consistent with the laws and Constitutions of the United States and the State of Mississippi, to enforce these laws while balancing the interests of the public and the interests of the governmental agencies we represent to the greatest extent possible, to treat every citizen with proper decorum and respect in the fulfillment of our duties of state representation, to assist agency clients with proper functioning by providing our client agencies with sound legal representation and to provide an assertive defense when necessary and appropriate, and to provide for the general protection of the citizens of the State of Mississippi against malfeasors.

3. Relevant Statewide Goals and Benchmarks

Public Safety and Order

Statewide Goal #1: To protect the public's safety and operate a fair and effective system of justice

Relevant Benchmarks #1:
• Percentage of convictions after indictment
• Minimum affirmations of criminal convictions
• Caseload per attorney
• Caseload per investigator
• Number of days to close a case not resulting in charges
Government and Citizens

Statewide Goal #2: To create an efficient government and an informed and engaged citizenry that helps to address social problems

Relevant Benchmarks #2:
- Cost of supportive services as percentage of budget
- Response time on consumer complaints
- Processing time for Crime Victim Compensation requests
- Average Crime Victims Compensation award
- Average Sexual Assault Exam payment amount
- Cost savings for state agencies for legal services provided
- Number of citizens trained on cyber crimes, domestic violence, vulnerable person abuse, consumer fraud, election fraud, etc.

4. Overview of the Agency 5-Year Strategic Plan:

The Office of the Attorney General (OAG) is continually challenged to provide and maintain the current high quality and level of legal services in traditional areas such as representation of state officials and state agencies, criminal appellate work, and consumer protection while concurrently adapting to newly identified areas of concern such as the protection of the especially vulnerable segment of the State -- our children and elderly citizens and providing advocacy on their behalf -- and investigating and prosecuting the so-called "high tech" crimes including identity theft.

Activity of the OAG is primarily response-oriented in that cases are managed that have their origins in circumstances outside the influence or input of the office. Thus, being able to accurately predict the caseload in any year is difficult, if not impossible. With that uncertainty comes an accompanying difficulty in determining the staffing requirements to efficiently and effectively perform the duties necessary for the best possible service to Mississippians. Like any large legal firm, the ability to hire and retain talented, dedicated and knowledgeable employees is directly proportional to the success of representation of clients. In the case of the OAG, those clients are the citizens of Mississippi.

Over the past 12 years, the OAG has experienced a steady increase in its caseload and in the complexity of lawsuits against state agencies and public officials, especially in employment grievance appeals and lawsuits, appeals of state agency regulatory decisions, and civil rights cases involving law enforcement personnel. Continued criminal activities of various types in the State of Mississippi result in a heavy caseload for both attorneys and investigators in divisions with jurisdiction in
these areas. The caseload of the attorneys dealing with criminal appeals and habeas corpus litigation continues to be heavy and growing. Additionally, the escalating problems of widespread drug trafficking and increased insurance fraud require additional manpower and specialized training and equipment to secure sufficient evidence for indictments and convictions.

Thus, over the next five (5) years, this agency foresees a need for additional manpower to handle the increased caseload and provide support in Litigation, Opinions, Insurance Integrity Enforcement, and Other Mandated Programs. Also, the OAG’s ability to hire and retain experienced staff in competition with both the private sector and other governmental agencies demonstrates a need for additional funding for salary increases. As funding becomes available, vacant positions will be filled. Divisions funded through federal and other source funds will be kept properly staffed through mid-year escalation and the normal budget request process.

5. External/Internal Assessment

1. Additional responsibilities mandated by State or Federal Legislative action
2. Passage of federal legislation to authorize Medicaid Fraud Control Units to investigate all federally funded mandated health care programs
3. Increase in the number of state agencies, boards, or commissions represented by this Office
4. Significant increase in civil suits filed against the State of Mississippi.
5. Timeliness of British Petroleum (BP) litigation
6. Specific rulings from the Courts which adversely impact a specific “type” of case handled within the agency
7. Decrease in federal funding for Medicaid Fraud
8. Significant increase in number of Mississippi prosecutors or others served through Prosecutors Training Division
9. Funding not collected as projected or a decrease in fees for Prosecutor Training, Cyber Crime, Vulnerable Persons, Child Desertion, Domestic Violence or Crime Victim Compensation
10. Significant increases in medical costs and claims received
11. High turnover rate resulting in a failure to retain experienced attorneys, investigators, and program and support staff

5.(A) Internal Management System Used to Evaluate Agency’s Performance

1. Processes are being automated to accurately track program measures and outputs.
2. Yearly budgets are distributed by program/sub-program.
3. Semi-annual meetings are held to assess whether each program area is on target with set program objectives, outcomes, and efficiencies. Action is taken to remedy any problems and flexibility is given in the implementation of the process to make any necessary adjustments.

4. Organizational chains of command are observed to ensure that section head is aware of all activity within each specific unit in order to monitor efficiency and effectiveness.

5. Performance Measures are reviewed by section head and modified as needed.

6. Annual meetings are held with section heads to ensure that management and employees understand what the desired results and/or outcomes are in order to be successful.

7. Short-term performances have been developed which more effectively focus on the agency's long-term objectives.

8. Internal audit procedures are being developed for performance measures for all programs.

6. **Agency Goals, Objectives, Strategies and Measures by Program for FY 2018 through FY 2022:**

The following goals, objectives, strategies and measures by program apply to fiscal years 2018, 2019, 2020, 2021, and 2022. As programs and state and/or federal laws change, adjustments will be made.
