**Agency Description and Programs**

The Mississippi Adequate Education Program (MAEP) is the primary source of funding for school districts in the state. MAEP replaced the Minimum Education Program that was repealed effective June 30, 2002. The major funding component of the MAEP is the Base Student Cost. The calculation of the Base Student Cost considers the cost of funding a Level III accredited school district. Additional funding components include students determined to be at-risk, Add-On Programs, and a local contribution amount.

**1. Basic Program**

This program provides stable and sufficient funding to public school districts in order to provide a Level III accreditation or adequate education to every child. This funding is calculated using the base cost, which represents the current cost of providing a Level III accreditation, times the average daily attendance (ADA).

**2. Add-On Programs**

This program, in addition to the Basic MAEP formula, provides the necessary funding for the Add-On Programs which includes Special Education, Gifted Education, Vocational Education, Insurance, Transportation, Alternative Schools, Extended School Year, Orthopedic and Aphasic, and Bus Driver Training.

**3. Debt Service Program**

This program provided for the payments of the long-term debt incurred during the phase-in period of the MAEP for capital improvements. The program ended in Fiscal Year 2019 because the bonds have been repaid.
