**Agency Description and Programs**

House Bill 402 of the 1964 Regular Legislative Session established the Research Institute of Pharmaceutical Sciences within the organizational structure of the School of Pharmacy of the University of Mississippi. The Institute is comprised of four (4) major research divisions: The National Center for Natural Products Research (NCNPR), the Center for Pharmaceutical Marketing and Management (CPMM), the PII Center for Pharmaceutical Technology (CPT), and the Center for Clinical and Translational Science (CCTS). These programs conduct research to improve human health and agricultural productivity.

**1. Research**

This program provides support for research programs aimed toward enhancing the economic development of the State of Mississippi, contributes to the basic knowledge in the pharmaceutical and agrochemical sciences and the improvement of the health status of Mississippians by improved health care delivery. Program activities are primarily the development of new drugs from natural products research, development and biological testing for Mississippi and other industries, development of cost effective delivery of health care systems, and drug abuse research.
