Agency Description and Programs

Student Financial Aid, under the direction of the Board of Trustees of State Institutions of Higher Learning and the Post-Secondary Education Financial Assistance Board, is the administering agency for all state-funded student financial aid programs except for the Leveraging Education Assistance Partnership (LEAP) Program. The office is guided by a two-fold public service mission to provide financial assistance to students in pursuit of educational and professional goals and to help the state fulfill workforce needs in specific service areas and achieve the goal of a more educated citizenry. The office seeks to build public awareness of the diverse financial resources available through ongoing communication with individuals, colleges and universities, secondary schools, governing boards, legislators, communities, and other constituency groups.

Student Financial Aid works independently and in partnership with other college prep and planning organizations to build public awareness of the financial resources offered by the state. The office provides information through high school counselors, college nights, parent association meetings, college fairs, and publications. Due in part to these ongoing efforts, the anticipated rise in the cost of attendance, and the economic downturn, more families than ever before are expected to seek financial assistance for post-secondary education.
