**Agency Description and Programs**

The Water Resources Research Institute was established to provide a coordinated research and development program that will contribute to the solution of water and water-related land use problems in Mississippi, the region, and the nation.

1. Research and Technology Transfer

This program utilizes research staff from universities within the state for research on priority water and water-related land use problems in Mississippi. It also is responsible for water-related technology transfer, information dissemination, and advising state agencies on water policy issues.
