# **Agency Description and Programs**

The Central Office - Service Budget funds residential and community-based services in Mississippi for people with serious mental illnesses with timely programs and services in the community as alternatives to institutional placement, thus enabling them to be served in the least restrictive environment and as close to home as possible. The Services provided are funded for clients through state funds, federal funds, and other funds made available by various funding sources. In Fiscal Year 2018, the Alcohol and Drug Abuse Program (3% Alcohol Tax-Alcohol/Drug Program) was administratively combined within the Service Budget as a program. The Department of Mental Health was given the authority to contract all Crisis Intervention Centers to Community Mental Health Centers, which shifted from institutional budgets to the Service Budget to expand community-based mental health, resulting in additional crisis stabilization beds around the State.
