### **Agency Description and Programs**

The Pat Harrison Waterway District (PHWD) was established under Section 51-15-107, Mississippi Code of 1972, and is comprised of multiple counties in South Mississippi. PHWD is responsible for planning and developing an optimum water management program for the Pascagoula River, Leaf River, Chickasawhay River, Tallahala Creek, and their tributaries. The District is chartered in its enabling act to retard flooding; to preserve, conserve, store, and regulate the waters for domestic, municipal, commercial, industrial, agricultural, and manufacturing purposes; for recreational uses, flood control, timber development, irrigation, and pollution abatement. These functions are accomplished through cost sharing with the Natural Resources Conservation Service, U.S. Army Corps of Engineers, Economic Development Administration, and Bureau of Outdoor Recreation.

#### 1. Recreation

This program oversees and owns a total of nine (9) recreational parks with lake facilities and campsites. One of these parks also has a water-slide-type recreational facility. The District maintains eight (8) boat ramps located throughout the District. The parks provide recreational swimming, camping, lodging, fishing, and boating.

2. Flood Control

This program plans, develops, constructs, and operates flood prevention projects and measures, in cooperation with the State of Mississippi, the U.S. Army Corp of Engineers, the Natural Resources Conservation Service, and the twelve (12) member counties.

3. Water Management

This program assists with the planning, management, and operation of improvements to provide a reliable supply of quality water within the District.
