**Agency Description and Programs**

The Adolescent Psychiatry Facility provides adolescents with short-term inpatient care and crisis stabilization to address acute mental health challenges and facilitate the continuation of care in outpatient services. This program was funded with Coronavirus State Fiscal Recovery Lost Revenue Fund (CSFRLRF) that is anticipated to be spent by December 31, 2026.

**1. Facility Repair and Renovation**

This program provides inpatient services to adolescents, bridging the gap between pediatric and adult mental health services, and establishing comprehensive mental health support within this age group. Through a multidisciplinary approach, the facility will offer crisis intervention, stabilization, and goal-oriented treatment plans to achieve successful transitions of adolescents to outpatient care and long-term recovery. Interns, fellows, residents, and other future clinicians will collaborate with a diverse group of mental health professionals, cultivating a skilled healthcare workforce.
