MISSISSIPPI DEPARTMENT OF CORRECTIONS

5 YEAR STRATEGIC PLAN

2021-2025

MISSISSIPPI DEPARTMENT OF CORRECTIONS

1. Comprehensive Mission Statement:

The mission of the Mississippi Department of Corrections is to enhance public safety by providing secure facilities and effective post-release supervision for offenders and ensuring a safe and professional work environment for staff while bringing accountability, innovation, and fiscal responsibility to the citizens of Mississippi.

2. Philosophy:

The support and safety of the public is of paramount importance and fundamental to the success of the agency's mission. Recognizing that people make an organization, the Mississippi Department of Corrections values and is committed to the professional development and well-being of each employee.

3. Relevant Statewide Goals and Benchmarks:

Statewide Goal #1:

• To protect the public's safety, including providing timely and appropriate responses to emergencies and disasters and to operate a fair and effective system of justice

Relevant Benchmarks #1:

- Crimes per 100,000 population (includes the crimes of murder, rape, robbery, aggravated assault, burglary, larceny-theft, and motor vehicle theft)
- Reported arrests for drug abuse violations per 100,000 population
- Collection of monetary penalties (percentage of monetary penalties collected and distributed within the established timelines)
- State prisoners per 100,000 population (includes only inmates sentenced to more than a year)
- Average annual incarceration cost per inmate
- Percentage of inmates without a General Educational Development certificate (GED), high school diploma, or vocational certification upon incarceration who earned one prior to release
- Percent of released inmates with a General Educational Development certificate (GED) or higher
- Percent of released inmates with marketable job skills

- Percent of inmates who obtain a vocational certification in prison who obtain and retain a job (one year and five year follow up) in the vocation for which they were trained
- Percentage of released inmates served in re-entry program housing upon release
- Adult recidivism rate (re-incarceration within three years of initial release)
- Juvenile recidivism rate (re-incarceration within three years of initial release)
- Number of incidents of contraband, violence, other significant rule violations inside prisons
- Number of crime victims provided with services
- Number of inmates receiving medical services for serious or chronic medical conditions
- Percentage of inmates exiting incarceration with the appropriate identification (birth certificate, Social Security card, and state identification card)
- Average emergency response time to natural and man-made disasters

4. Overview of the Agency 5-Year Strategic Plan:

Mississippi's prison population has grown by 17 percent in the last decade. In July of 2013, Mississippi prisons housed 22,600 inmates. Mississippi had the second-highest imprisonment rate in the country, trailing only Louisiana. Absent policy change, these trends will continue and Mississippi will need to house an additional 1,990 inmates by 2024. This growth is estimated to cost the state an additional \$266 million in corrections spending over the next 10 years.

In an attempt to ease escalating prison costs over the past decade, between 2008-2010, the state adopted a series of patchwork release policies that undermined clarity in sentencing, created a disconnect between the corrections and criminal justice systems, and were ultimately unsuccessful at controlling prison population and cost growth.

Seeking a comprehensive and data-driven review of the sentencing and corrections systems, the 2013 Mississippi Legislature passed, and Governor Phil Bryant signed into law, House Bill 1231 to establish the bipartisan, inter-branch Corrections and Criminal Justice Task Force (Task Force). The Task Force was charged with developing policies that improve public safety, ensure clarity in sentencing, and control corrections costs. Beginning in June 2013, the Task Force analyzed the state's corrections and criminal justice systems, including an exhaustive review of sentencing, corrections, and community supervision data. Key findings include:

- Almost three-quarters of inmates entering prison in 2012 were sentenced for a nonviolent offense.
- More inmates are now entering prison for violations of supervision than for new crimes.
- Uncertainty about how long inmates will serve behind bars has helped push up sentence lengths by 28 percent over the past decade.
- Nearly one in three nonviolent inmates return to prison within three years of release.

Based on the analysis, the Task Force developed a comprehensive package of policy recommendations that fulfill its mission. Taken together, the Task Force's policy recommendations are projected to halt all projected prison growth and avert at least \$266 million in corrections spending through 2024.

During the 2014 legislative session H.B. 585 was passed in an effort to address the problems identified by the Criminal Justice Task Force. MDOC is committed to implement the requirements of H.B. 585 in its policies, procedures, and practices.

Additionally, MDOC shares the nationwide re-entry mission to reintegrate returning citizens into the community, reduce prison recidivism, and improve public safety through addressing the educational, employment, healthcare, housing and family relationships needs of those re-entering society by providing support and connection to needed services in the community after being released from prison. MDOC is in a good position to capitalize on any future population decreases that H.B. 585 may allow. Reinvestments in proven programs and services is essential to sustain the reforms gained through H. B. 585.

5. Agency's External/Internal Assessment

- Although H.B. 585 addresses some aspects of sentencing, MDOC has no control over the length of sentences imposed by the courts which has a direct effect on inmate populations.
- Following the trend in other states, the inmate population is becoming older and generally requires more medical care.
- MDOC relies upon inmate self-reporting education and employment histories allowing for some inaccurate data to be introduced into the classification process.
- Upon exiting the corrections system (all portions of the sentence expired), the MDOC has limited means of tracking the progress of the offender.
